PS/2 Keyboard.
Scan the above for PS/2 computer. (Includes IBM
PC and compatible models 30, 70, 8556).

Scan Second

||| ||||| |||||| ||| |||
³ 1 1 6 3 0 0

Do Not Transmit FOH Break Code.
The scanner will not transmit the FOH in the
break-code sequence.

Scan Third

Only Scan Bar Code Below to Start Over.

NEED TO START OVER?

Scan the *Recall Default* bar code. This will erase all previous
to the scanner's default communications protocol.

Keyboard Wedge interface scanners will load keyboard wedge

All other scanners load RS-232 defaults.

Note: Metrologic manufactures custom OEM scanners, which
defaults. Page 95 will explain how this affects "Metrolo
